Scoring :-

Please note BBO uses the ACBL 20 point VP scale which is what we are using and it is here :- <https://bridge.silvertexter.eu/results/Virtual/ACBL-6.pdf>

Entries :-

We have 20 Teams Entered at present – Assuming everyone turns up – there will be no need for a Robot Team. If however we end up with an uneven number of teams and we have a Robot team – their scores Will NOT count and your score against them will be 12/8 in your favour or a higher adjusted score if you have a higher average at the end of the night

Please note that the Top Four for the knockouts will be declared based on VPs.

If there is a tie and all tied teams have played each other the same number of times then the tie will be split based on the total VPS obtained in the Direct Matches against each other. Any ties unbroken by the above or any other ties will be broken by adding the VPs of all of your opponents and whoever has the highest total wins the tie. (It will take me a little time to check these in the event of a tie -

After Week 1 the top 4 qualify for the Semi Finals and the draw will be as such :-

Please note the teams that qualify for the SEMI-FINALS do NOT register for week 2 – I will set-up a separate team match for them

- a) In Semi-Final A – First will play Fourth – 8 boards
- b) In Semi- Final B – Second will play Third – 8 boards
- c) Then we will have a 3rd/4th play-off with 10 boards
- d) The final will be over 14 boards

If there is a tie in the Semi-Final, the higher ranked team from week 1 progresses to the final. If there is a tie on the final we will play 3 extra boards

- e) Meanwhile those who don't qualify for the Semi-Finals will play a new Consolation Swiss event with no carryover and they need to Register again next week.

Undo's :- Please note that Undo's will be switched on in this competition but the Director will only insist on an undo where the laws of bridge allow same in the real world. ie for a mechanical error in bidding and only before your partner has called. Any other request for an undo will be dependent on your opponents allowing same. Please note that in your settings you can set up your profile where it asks you to confirm all your bids, confirm all your cards or confirm both all your bids and all your cards. This will prevent mis-clicks. While slowing your actions a little bit, it certainly will prevent you mis-clicking bids or cards.

As a player on BBO – I always allow an undo when someone requests !
